Invasive Species - What Everyone Needs to Know. By Daniel Simberloff, 2013 (PB). This book covers such topics as how humans introduce these species - sometimes inadvertently, but often deliberately - the areas that have suffered the most biological invasions, the methods we use to keep our borders safe, the policies we currently have in place to manage these species, and future prospects for controlling their spread. Simberloff analyzes the direct and indirect impacts of invasive species on various ecosystems, such as when non-native species outcompete native species for food or light, describes how invasive species (such as the Asian mosquito that vectors West Nile virus, itself an invasive species) transmit pathogens, and explains his theory of "invasional meltdown" in which two or more introduced species combine to produce a far more devastating impact than any one of them would have caused alone. The book confronts controversial issues surrounding invasive species and is essential reading for anyone interested in this fascinating and important topic.. (JBA Code: 144582) ₹ 695

BIOGRAPHIES & MEMOIRS

10.  **At The Helm - A Memoir.** By V. Krishnamurthy, 2014 (HB). If for any reason at all he fails, virtually the entire public sector will have to be written off for the next twenty years, noted the panel that chose V. Krishnamurthy as the Business India Businessman of the Year in 1987. Management of a business enterprise in India is a lot more difficult than in other countries. There are far more uncertainties that an Indian manager has to encounter while performing his tasks even more so in state owned companies often synonymous with inefficiency than in private ones. But Krishnamurthy through his exemplary stewardship of three enterprises emerged as the pride of Indias public sector in the 1970s and 1980s. At Bharat Heavy Electricals Limited, he saved the company from imminent disintegration and dispelled Indira Gandhis impression that Indian managers do not have the ability to manage large organizations. At Maruti Udyog he was given the responsibility of not just manufacturing a car but of modernizing the automobile industry itself. Steel Authority of India was almost a sunset company when he took over but he shook up the organization from its very foundations and put it back in a leadership position.. (JBA Code: 147531) ₹ 599

12.  **Decoding Didi - Making Sense of Mamata Banerjee.** By Dola Mitra, 2014 (PB). Very few politicians in India today generate as much interest as does the chief minister of West Bengal, Mamata Banerjee - popularly known as Didi. Diminutive yet defiant, unassuming yet arrogant, always volatile, though now increasingly erratic, Didi remains a puzzle. In 2011, Didi defied all odds to achieve what was once considered near impossible-she brought the thirty-four-year-old left regime in West Bengal to an end with a promise of a better tomorrow for the state. The success of Mamata Banerjee has been a subject of study at some of the most prestigious universities in the world, including Harvard and Cambridge. But the same Mamata Banerjee has also been scathingly criticised and ridiculed, not just by rivals in politics but also by former supporters, civil society and even the common man for failing to deliver on the dream she once promised her constituents. Dilip Kumar - The Substance and the Shadow : An Autobiography. By Dilip Kumar, 2014 (HB). A Long-awaited Autobiography. An authentic, heartfelt and compelling narrative—straight from the horse's mouth—that reveals for the first time numerous unknown aspects of the life and times of one of the greatest legends of all time who stands out as a symbol of secular India. Dilip Kumar (born as Yousuf Khan), who began as a diffident novice in Hindi cinema in the early 1940s, went on to attain the pinnacle of stardom within a short time. He came up with spellbinding performances in one hit film after another - in his almost six-decade-long career - on the basis of his innovative capability, determination, hard work and never-say-die attitude. In this unique volume, Dilip Kumar traces his journey right from his birth to the present. In the process, he candidly recounts his interactions and relationships with a wide variety of people not only from his family and the film fraternity but also from other walks of life, including politicians. While seeking to set the record straight, as he feels that a lot of what has been written about him so far is full of distortions and misinformation, he narrates, in graphic detail, how he got married to Saira Banu, which reads like a fairy tale!. Kanshiram - Leader of the Dalits. By Badri Narayan, 2014 (HB). Venerated as a dalit icon, Kanshiram (1934-2006) is regarded as being next only to Ambedkar today. This book illuminates his journey, from the early years in rural Punjab and with Ambedkarites in Pune, to his launching BAMCEF, an umbrella organization uniting backward castes, scheduled tribes, dalits and minorities and eventually the Bahujan Samaj Party in 1984. Drawing on myriad oral and written sources, Badri Narayan shows how Kanshiram mobilized dalits with his homespun idiom, cycle rallies and uniquely, the use of local folk heroes and myths, rousing their self-respect and how he struck opportunistic alliances with higher caste parties to seize power for dalits. Evocatively described is his extraordinary relationship with Mayawati, right until his death and the role she has played in fulfilling his vision, during and after his lifetime. Contrasting the approach of the two men, Narayan highlights the turn Kanshiram gave to Ambedkar's ideas. Unlike Ambedkar, who sought its annihilation, he saw caste as a basis for forging a dalit identity and a source of political empowerment.. (JBA Code: 147825)

My Years with Rajiv and Sonia. By R. D. Pradhan, 2014 (PB). Rajiv Gandhi was a reluctant entrant into the arena of politics. The author got to know him when, in January 1985, Rajiv Gandhi (who had succeeded Indira Gandhi, his mother, as prime minister after her assassination) asked him to take over as Union home secretary. In that capacity the author worked very closely with Rajiv Gandhi who had to tackle a range of crucial issues such as terrorism and the separatist movement in the Punjab and festering insurgency in Mizoram. After retiring as home secretary, Pradhan worked as a close aide to Rajiv Gandhi during his last election campaign in April-May 1991. After Rajiv Gandhi's brutal assassination (on 21 May 1991) the author recounts his vital role in P.V. Narasimha Rao's elevation as prime minister in late June 1991. Pradhan legitimately asks, on the basis of certain facts, whether the assassination could have been prevented. In the late 1990s and thereafter the author was associated with Sonia Gandhi and her career. He actively assisted her in the early years of her political life. He was also by her side when in 1999 as the new Congress president she faced an overt rebellion by a section of wily, hardcore and ambitious senior politicians. He traces how Sonia Gandhi over the years has emerged as a formidable force to reckon with.. (JBA Code: 147532)

25.  ***The Death of Money - The Coming Collapse of the International Monetary System.*** By James Rickards, 2014 (PB). In ₹ 599
The Death of Money, the author predicts the collapse of the international monetary system in near future. The author explains that the international monetary system has crashed thrice in the last hundred years, in 1914, 1939 and 1971 and the next is going to happen very soon. The author further writes that this time dollar will not be able to save the investors, but it would be the major reason behind the collapse. The book provides the readers with a deep insight into the world of finance. The world is experiencing a global money experiment in which the everyday citizens and investors are merely guinea pigs for the central bankers. The book will also help the readers distinguish money from wealth. According to the author, money is transitory and may soon become worthless, but wealth, like gold, land and fine art, is permanent and its value will only appreciate with time. Investors who have been wise enough to convert money into wealth will only be able to pull through the economic crisis. The book very clearly portrays the death of money and helps the readers prepare for the worst.. (JBA Code: 148234)

The Fall of the Faculty - The Rise of the All - Administrative University and why it Matters. By Benjamin Ginsberg, 2013 (PB). American universities were once led mainly by their faculties, which prized intellectual production and pedagogy as their core mission. But in the past decade, Benjamin Ginsberg argues in *The Fall of the Faculty*, these universities have added layers of nonacademic administrators and staffers to their payrolls every year even while laying off full-time faculty in the name of budget cuts. Many of the newly minted administrators are career managers who downplay the importance of teaching and research in favor of a banal "life skills" curriculum, and consequently, students are denied a more enriching and intellectually rigorous educational experience. Ginsberg also reveals how the administrators have co-opted the legitimate grievances of minority groups and liberal activists in order to curry favor with these groups and legitimize a thinly cloaked gambit to bolster their power over the faculty.. My Years with Rajiv and Sonia. By R. D. Pradhan, 2014 (PB). Rajiv Gandhi was a reluctant entrant into the arena of politics. The author got to know him when, in January 1985, Rajiv Gandhi (who had succeeded Indira Gandhi, his mother, as prime minister after her assassination) asked him to take over as Union home secretary. In that capacity the author worked very closely with Rajiv Gandhi who had to tackle a range of crucial issues such as terrorism and the separatist movement in the Punjab and festering insurgency in Mizoram. After retiring as home secretary, Pradhan worked as a close aide to Rajiv Gandhi during his last election campaign in April-May 1991. After Rajiv Gandhis brutal assassination (on 21 May 1991) the author recounts his vital role in P.V. Narasimha Raos elevation as prime minister in late June 1991. Pradhan legitimately asks, on the basis of certain facts, whether the assassination could have been prevented. In the late 1990s and thereafter the author was associated with Sonia Gandhi and her career. He actively assisted her in the early years of her political life. He was also by her side when in 1999 as the new Congress president she faced an overt rebellion by a section of wily, hardcore and ambitious senior politicians. He traces how Sonia Gandhi over the years has emerged as a formidable force to reckon with.. (JBA Code: 147532)

121.  **Limitation of Actions.** By David Oughton, John Lowry, & Robert Merkin, 1998 (HB). This work is an analysis of the law relating to limitation of actions. The authors have approached this work by setting out general matters such as the relationship between statutes of limitation and equitable principles on the matter of delay in instituting proceedings the generalities of accrual of a cause of action and the relationship between limitation periods and rules of pleading and procedures. The bulk of the text sets out the particular difficulties encountered in particular areas of civil litigation. For these purposes it includes specific sections on contracts and commercial law, tort, restitutionary claims and actions in respect of real and personal property. While these four broad areas cover the majority of limitation issues, the problem with the subject generally is that there is such a diverse range of statutory limitation periods that there are some limitations upon a legal remedy which do not readily fall into the four categories referred to above and are dealt with separately. Finally, it analyses the issues arising from the burgeoning case law on the matter of prevention, extension and postponement of limitation periods.. (JBA Code: 148501) ₹ 2995

168.  ***Decoding Didi - Making Sense of Mamata Banerjee.*** By Dola Mitra, 2014 (PB). Very few politicians in India today generate as much interest as does the chief minister of West Bengal, Mamata Banerjee - popularly known as Didi. Diminutive yet defiant, unassuming yet arrogant, always volatile, though now increasingly erratic, Didi remains a puzzle. In 2011, Didi defied all odds to achieve what was once considered near impossible-she brought the thirty-four-year-old left regime in West Bengal to an end with a promise of a better tomorrow for the state. The success of Mamata Banerjee has been a subject of study at some of the most prestigious universities in the world, including Harvard and Cambridge. But the same Mamata Banerjee has also been scathingly criticised and ridiculed, not just by rivals in politics but also by former supporters, civil society and even the common man for failing to deliver on the dream she once promised her constituents.
